

Plato Summer School

Timaeus

Melbourne 2010

School of Philosophy, Hawthorn Campus

Plato's *Timaeus* includes a summary of the *Republic*, an account of the ancient history of the world including the mysterious lost island of Atlantis, the nature and origin of the universe, the beautifully ordered structure of the cosmos and how it is reflected in our inner being. We will read the Dialogue and discover its relevance to our lives today.

The week will be conducted by Mr. David Horan.

January 2nd - 9th

45 Riversdale Road, Hawthorn
